

## Message from Conference Chairs

Dear members of the CISIS family,

As you know, it was planned that the 2020 edition of CISIS conference was going to be held in the beautiful and historic city of Burgos (Spain), in September 2020. However, due to the COVID-19 outbreak, and taking delegate' health a as priority, the conference is being held fully online.

In this relevant edition a special emphasis was put on the organization of five special sessions related to relevant topics as: Fake News Detection and Prevention, Mathematical methods and models in Cybersecurity, Measurements for a dynamic cyber-risk assessment, Cybersecurity in a Hybrid Quantum World, Anomaly/Intrusion Detection, From the least to the least: cryptographic and data analytics solutions to fulfil least minimum privilege and endorse least mini-mum effort in information systems.

After a thorough peer-review process, the CISIS 2020 International Program Committee selected 43 papers authored by researchers from 31 countries, which represents an acceptance rate of 28%. The selection of papers was extremely rigorous in order to maintain the high quality of CISIS conference editions and we would like to thank Session Chairs and the members of the Program Committees for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference and the CISIS conference would not exist without their help.

We would like to thank you all for your support and understanding.  
Hopefully, we will meet face-to-face in the 2021 edition.

Be safe

The CISIS 2020 Chairs

Emilio Corchado

Álvaro Herrero

Javier Sedano

Carlos Cambra
